Several Members of Free State Government Are Under Arrest

DUBLIN. Jan. 30.—The Irish Trade Agency in Paris has passed into the hands of the irregulars, owing to "the treachery of the late trade agent," the Dail Eireann was informed today by Desmond Fitzgerald, Minister of Foreign Affairs. The Irish office in Madrid has been closed, but that in Rome is still open and no decision has been taken by the government to curtail its external relations, he added.

William T. Cosgrave, president of the Dail, said the government had decided to suspend payment to those government officials who had supported disorder and whom the military had imprisoned. These cases were few, he declared.

Washington, Jan. 30.—Reorganisation of the diplomatic and
consular activities of the United
States into one interchangeable
service organisation as sought by
Secretary Hughes was approved today by the House Foreign Affairs
Committee, which reported the
Rogers bill providing for consolidation of the two branches.
Complete interchange of personnol, a single revised salary reale,
eatra allowances to representatives
at foreign capitals, thus eliminating
the necessity of large private
manns for diplomatic offices, and
extension of the Civil Service are
among the provisions of the bill.
Increases in salaries would be
suthorised for many posts, chiefily for secretaries and lower offloers, but the compensation of
ministers and ambassadors would
be given salary increases from the
present 3500 to 35000.

Pointing out the necessity
for defining out the necessity
for defining allowances at diplomatic posts, the report of the committee said it was "deplorable that
by denial of adequate compensation the United States, the great
democracy, now restricts the admission to the office of secretary
in the diplomatic service to the
members of a small circles of society, who are willing to provide
from their private fortunes for the
support of their positions abroad.

"It is notorious," the report said,
in discussing failure of the government to provide money for ontertainment leaves a choice of two
evils, the actrifice of the public
interest or the restriction of appointment to men of wealth willing

Why do many beautiful women fail to have beautiful teeth?

This offers you a test-to show the way to whiter, prettier teeth. It tells you how to remove the dingy

film-coats on them. You see glistening teeth everywhere

today-teeth you envy, maybe. This is how folks get them. Won't you see what it does for you?

That cloud is film

Teeth are coated with a viscous film. You can feel it now. It clings to teeth, enters crevices and stays.

Food stains, etc., discolor it. Then it forms dingy coats. Tartar is based on film. That is why teeth lose luster.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause

New ways of attack

No ordinary tooth paste effectively fights film. So dental science searched for film combetants, and found two. One acts to curdle film, one to remove it, and without any harmful scouring. Able authorities proved those methods by many careful tests. Then a newtype tooth paste was created, based on modern research, and those two new film destroyers were embodied in it.

That tooth paste is called Pepsodent. Now careful people the world over employ it, largely by dental advice,

With French war veterans acting as ushers and a fair sprinkling of members of the American Legion in attendance the auditorium of the Ebell Club on South Figueroa street was well filled last Aight at a meeting of the Alliance Francaise, where, in connection with the customary program which has to deal with advancement of French culture in America, the president, Lucien N. Brunswig, head of the Brunswig Drug Company, delivered an address upon the French and Belgians in the Ruhr. Preceding the talk a number of piane and vocal solos, a recitation or two and the singing of "La Marsellialies" by Mme. Marguerite Vogel of l'Opera Comique de Paris further enlivened the occasion.

"The nedition! horizon of Europe."

"The political horizon of Europe is at this time so disturbed," said Mr. Brunswig, "as to cause many commentaries pre and con, criticising the action of the French government in its occupation of the Runr Valley and taking possession of its industrial life. The yellow press of America with contributions from second-class politicians is extremely aggressive and characterface the action of France arbitrary, tunwarranted, militaristic and tyrannical. Let us suppose a commercial situation for example. An honorable corporation in good faith has entered into an agreement with a concern indebted heavily, unable to pay st the time and granted such debtor an extension of from three to four years to meet its solemn obligation, signed, sealed and delivered. In due time, four years to meet its solemn obligation, signed, sealed and delivered in bad faith not only repudiates the signature, but dares its lenient creditor to attempt the enforcement of the payment. This is the situation between France and Germany. It is an endeavor to collect a legitimate debt.

Germany, who have camounaged their liquid available funds to neutral countries, out of the reach of the creditor country. "Much ado and aggressive propaganda has obtained as to the heavy expense of the armies of occupation as did extra the concupation and germany do in the occupation and germany do in the occupied regions of France? Bear in mind, Bismarck, the man of blood and iron, seising France by the throat in 1871, planted German armies on French soil as collection agents, remaining there for several years, until the last penny had been paid in gold. The position of France and Belgium is just, legitimate and proper, and unbiased Americans who know France and the French people are, I am sure, in sympathy with my viewpoints." **ART COLONY** IS STIRRED

Nimmo and Harry R. Day. BY ARREST Whittier Votes

to Provide, Says Blackmail

The city of Whittier will con-tinue to transact its municipal busi-ness in the same old way. A ness in the same old way. A mayor, a marshal, a board of trustees, all elected by the people, is the form of government that suits its people best. Testerday they declined to accept an opportunity to change the machinery of the municipality to the city manager plan. By a vote of 1460 to 721, electors defeated the proposed new charter. The vote represented approximately half of the registration.

Santa Barbara's art colony was upset yesterday when Thomas Bouchard, one of its leading figures, was arrested on a charge of failing to provide for a minor illegitimate child of whom he has been named the father.

Mr. Bouchard formerly resided in Pasadena, where the romance that has terminated in his arrest is said to have taken place. According to Constable Sosey, who issued the complaint, the young artist fell in love with a pretty 25-year-old Pasadena girl, whose name is withheld. The infant was born two weeks ago.

According to the girl's story as told to him. Constable Sosey says, Mr. Bouchard promised to support and care for the infant, but shortly before its arrival he disappeared and was later located in Santa Barbara. Following the birth of the babe, the girl soid, she went to Santa Barbara to plead with the young artist to keep his promise. On his refusal to do so, she added, she returned and filed the complaint signist him. Several weeks ago agitation by the Chamber of Commerce and women's clubs of the city resulted in the choosing of a board of free-holders to submit a new plan of government. The board completed its task soon after appointment and proposed a city manager to be hired by a board of directors to be elected. They provided that the manager could not be recalled by a vote of the electors. This last proviso, it seems, proved the stumbling block and provided ammunition for argument by those opposed to the new charter.

have been one of the most profitable crops grown in California since the days of the

early Missions. When the sturdy founders of the Golden State established their outlying settlements they found the soil and climate perfectly adapted to the pleasant and profitable industry of grape growing. From that day to this, during the century and a half of California development, grapes have contributed more to the State's prosperity than any

other product of the soil. They have always been a tremendous source of revenue. They continue profitable today and should remain so for ages to come.

Nowhere in Southern California is there a greater investment opportunity in vineyards to be found than at Fontana. There the Fontana Farms Company, through 17 years of constant development and the expenditure of millions of dollars, has perfected one of the greatest vineyard properties in the world.

Southern California's MOST FAMOUS GRAPE LAND

RAISE IN PRICE

BEGINNING February 1st the price for all year-old vineyards at Fontana will be raised from \$500 to \$550 per acre. Until that time the few of these vineyards remaining may be bought for the same prices we are charging for newly planted grape land.

These vineyards, under one of the best irrigating systems in the West, are offered for sale at only \$500 per acre upon easy terms payable over 5 years.

The Fontana Farms Company furnishes all cultural care and water, free of charge, for three years from date of planting.

Only irrigated vineyards yield big returns-from 6 to 8 and even 10. tons to the acre, and last season prices paid ranged from \$75 to \$140

Fontana offers one of the very best land investment opportunities in California today. You should obtain full information at once.

In order to be a championship golfer a perfect co-ordination between mind and body must be obtained. In almost every form of athletics this same thing is true, and therefore the former athletic is at somewhat of an advantage. Take, for instance, tennis. One of the fundamental rules of this game is to keep the eye on the ball, another is to follow through. These same two rules are the first that are taught the embryonic golfer.

Thus, in the Southern California open tournament just completed Maury McLaughlin was found to be at the top of the amateur list and his being a great tennis player seems to have aided him in his rapid rise from the "dub" class.

Arnold Statz, famors player of the Los Angeles and Chicago baseball teams, is another good example of the rapid rise of a former athlete. Because of his baseball training, Statz has been able to rapidly climb the golf ladder of fame.

Last, but not least, is the famous Duke Kahapamoku, cham-

Weiguilier and er round out the speedy Hold of two. A wonderful battle of two different that the fact that the fact through the same has direct bearing on the Triple A title there is also an attraction in the fact that two of the same forwards, and Anderson, who were insected men last Priday.

Aside from the fact that the fact that the grantest semi-pro pitchers in the country will do mound duty. So their star forwards, and Anderson, who were insected men last Priday. As a should win over Pasadena Priday. Peter Thompson, Jimp Locus, Town III and the team's his season, while McDonnell pitched for wights and as they are playing better ball now they are quite a worthwhile at the fact that worth was anyway and the team's anyway and the team's his season, while McDonnell pitched for Wichita. Both of them created for wichita as they are playing better ball now they are quite a worthwhile and as they are playing better ball now they are quite a worthwhile and the first properties of the same hands of the same hand

who succeed by trickers

dowed mentally and physically. Both had the presumable athletic handleap of timited stature. They seemed perfectly matched in skill and ability. At that time their situation was identical, and they apparently had started on parallel carcers. Today McGraw is a millionalre and probably the most outstanding figure in baseball. Mohler is a railway brakeman, working hard, carning a living, but with slender resources.

These are the cards which baseball dealt two men who started apparently equal in all things. One drew a small palrand the other a royal flush.

McGraw won his present position by legitimate means, and by indefatigable effort. Mohler was equally indefatigable, and his aims legitimate. His habits, perhaps, were more regular than those of McGraw, for Muggsy has been rather a wild hombre at times. Their course in haseball was much the same. Both jumped their clubs, which was legitimate in those days. No opprobrium attached to the act. Mohler, however, was the stendier of the two, and possibly a bit more unshakable in his allegiance.

Mohler was industrious, soher and stendy-going, and struck one as sincere to the very fiber of his being. He deserved to succeed and prosper, advance to the very forefront of his profession. He has no them for a failure in the fluer sense of the word. He has a home, is the breadwinner for a family and has raised two exceptionally fine boys. But when viewed in contrast with the opulence of McGraw, the man who started at the same time, you feel that fate has dealt him rather a shabby hand.

Had McGraw not caught on with the Orioles early his career, would he have forced to the from through some other channel, or was that move the turning point of his life? Since I can't, with the advantage of knowing both mer very well, possibly you can explain the utter final divergence of two careers which started on a parallel.

a hazard pocket billiard tournament will start and will continue until February 10. Many entries have been signed up to date and more roll in every day.

One reason for the interest taken in this tournament is the fact that a Star touring car is up for the winner of first place, a tailored suit for second, and third-place winner gets a jointed cue.

GEORGE NELSON OIL TOWN **MEETS SANTEL** TO BUILD AN ARENA

Famous Heavyweights Clash at Philharmonic

Both Grapplers Out to Win Bout in Fast Fashion

Meyers and Sandow Also on Monday Night's Card

when George Nelson, famous 216-pound Salt Lake grappler, steps into the ring for his match with Ad Santel, world's light heavy-weight champion, in the bout at the Philharmonic Auditorium next Monday night, local fans will see him in the best shape of his career and determined to defeat Santel in quick fashion. Nelson has been training in earnest and plans to start on a wrestling tour of the East after his bout with Santel. While in the Bast Nelson, who has wrestled with all of the best heavy-weights, will take on Stanislaus Zbyssko, former heavy-weight champ, in Bosten. A defeat at the hands of Santel would ruin his match with Zbyssko so Nelson will be out trying to pin the light heavy-weight title holder's shoulders to the mat in fast time.

Santel, however, has been training ever since he sensationally cossed Louis Pergantos, Greek star mat man, and will go into the match confident of winning, as he has done in all of his previous matches here. Ad's time has been spent between the Union League gym and the beach at Venice, where he tears off fourteen miles every day. Nelson and Santel will meet at catchweights and the watch will got to a finish, best two falls out of three.

Johnny Meyers, world's middle-weight champion wreatler, is to meet Sandow, Long Beach westling instructor, in the first main event for the middleweight title. Meyers a strives in Los Angeles February 3 from the Middle West, where he has successfully defended his title in a number of matches. One preliminary bout rounds out the card.

"Willowville, that naughty off town which lieth three miles north of Long Beach, has been clamoring for a boxing arena, and a boxing arena it shall have," says Woody Higgins, 127 East Seaside Boulevard, Long Beach, Mr. Higgins has plans drawn for a \$18.000 arena, to seat 4000 fight fans, which will be erected on a site already secured on American avenue boulevard, in the shadow of the old derricks of Signal Hill. Mr. Higgins promises that work on the arena will be begun within a week, and the street ture will be completed within three wooks, from the time of beginning.

The Sunday shoot will have enough competition to satisfy the most hardened clay-bird buster. It had been planned to sell or trade Hyatt, but this was some weeks ago. There is little tendency on the part of Coast League clubs to dispose of any of their players. Normally there would be an abundance of deals on tap at this period of the calendar.

Everything considered, the Tigers seem to be pretty well set for the race, with Kenns, O'Brien, Blenkiron, Finner, Trautwein and a flock of others with that schoolboy complexion, yet to be heard from.

"'Spose you have received your contract and are all set for the season?" was the salitation offered Wheeser, as he bent to his toil. Mr. Dell is doing manual labor to keep in shape.

"Yeh. I have received my contract, but frankly it lan't at all satisfactory," replied the tall pitcher with the expression of a man with important plans for the future not wholly formulated. A year ago, Wheeser was deing a hitch in the movies and contemplated retirement. Each spring finds him contemplating something other than baseball, but the spening day generally finds him out there doing the honors. No apring would be com-plets with Mr. Dell dissenting from the terms of the original contract. Sir Walter Laleigh is credited with having taken oranges as well as tobacco to England.

than discounted the adverse position. The new pool is reported to be basing its expectations upon the hopes of an oversold market which will give the pool manager opportunity to bring the stock back into line with other rails. In view of the exceptional activity of Baltimore & Ohio, Pittaburg & West Virginia, St. Paul preferred and other moderate pricod rail stocks, traders believed that with any sort of menagement, a pool could succeed in making Rock Island the market leader of that division.

American Brake Shoe developed sudden activity during the late trading today and reached 77. Buying of this issue is evidently based upon expectations for the meeting which will be held in March at which time, according to Wall Street gossip, an extra dividend of about \$2 a share may be declared.

DAILY TRADE TALK

House-Cleaning Month Passes With Industry on Sound Basis; Outlook is for Continued Strength

The first month of the new year, generally known in business as the house-cleaning month, has passed without making any material changes in the general industrial situation. Business, as a whole, has been unusually active for Janary. The breadth of it has been the particularly encouraging feature. All lines of endeavor seem to have been given enough impetus in the closing period of 1922 to continue on the up grade throughout the month, and there is no apparent reason in sight at this time why February should not see a further increase in activity and a further exercise of its buying power by the consuming public.

The Los Angeles situation remains in the business spotlight as it is flashed from the national conning tower, and in every way there has been a notable advance. Visiting economists, some of them, predict a break in the upward swing during the early summer, but the reasons they advance for this possibility apply with much less force to this community than they do to the Bast and Middle West, where the first effects of Europe's declining ability to buy our goods will be felt.

Los Angeles has become a great magnet, constantly being recharged by its own power, and drawing to this charmed white spot new citizens from all parts of the country.

It is probable that the tourist influx is somewhat below the average of the gestate recoming to their call that more periods and retail sales, and clearings, and automobile trade, and a hundred offer things give continual evidence of this. Certainly viewed from a local perspective there is nothing on or under the industrial surface that should cause any alarm for business spective there is nothing on or under the industrial surface that should cause any alarm for business spective there is nothing on or under the industrial surface that should cause any alarm for business several months to come. Indeed, all that is apparative to confidence which is permanent to confidence which is permanent to confidence which is somewhat below the actate reconding to the retail sal

Repaying Franklin's Millions

AT the close of the Revolutionary War the United States was faced with a debt of \$75,500,000.

More than \$10,000,000, a huge sum for those days, was owed to France and Holland, who had lent money to the Colonies as a result of the efforts of Benjamin Franklin.

Even though the United States was a new nation, impoverished by war, the debt was funded, bonds issued, and in due time the government paid dollar for dollar.

In the same year (1791) the public showed its confidence in the new government by subscribing for \$8,000,000 worth of stock in the United States Bank. Philadelphia oversubscribed her allotment in 15 minutes.

This period marked the real beginning of American investment. Today, billions of dollars are placed at the disposal of business and government every year, secured by our Nation's Wealth.

This is the fifth of a series of advertisements depicting the origin and development of the use of bonds and securities. Copyright 19:1.

Zince and lead production ran at comparatively high rates during 1922 because of the demand for these materials in residential and office building. The rate of production will continue as long as building operations are maintained, and will, of course, be stimulated by general industrial activity.

Inspired by the guarantee under the Pittman Act, stiver mining in the United States has been carried on at a satisfactory rate. The guarantee of \$1 on ounce is expected to expire sometime around November, when the specified allotment of building the specified allotment of building the experiment purchases, legislation is being prepared for introduction in Congress seeking to stabilize the value of silver and to bring about a larger use of the metal. The demand from China and India is the principal force in the market outside of the government purchases, but silver proponents believe that their industry can be saved by a campaign of propaganda. However, India expecially is prosperous, and is taking an amount of the metal, sufficient to support the industry.

DAILY TALK ON TRADE GIVEN

When labor is employed, it eath when it is employed at what it considers advantageous wages, it eats more. Just now there is a dearth of skilled and semiskilled labor, and it cannot be said that the supply of common labor is any too plentiful. That demand for labor, together with the prices that are having to be paid as wages, is keeping costs of production at an unsatisfactorily high level—a level which is going to react, perhaps, to the disadvantage of American industry when the time comes for a resumption of commodity exchange with European countries, where labor is cheap and growing cheaper. That, of course, is in the future, but it is not in such a dim future as to warrant any smpg closing of industrial eyes in this country to its possibilities.

The people of the United States are having an increasing confidence in business. Their buying power is getting greater and their willingness to buy is increasing confidence in business. Their buying power is getting greater and disproportionately high production cost on the other, are, when joined, likely to cause a rise in commodity prices, which, if carried on too rapidly, would bring about an unhealthy situation. Bankers are doing considerable to restrain a too rapid rise—a rise that savors of speculation. Money is plentiful. Interest rates are not burdensome, but, nevertheless, considerable caution in making loans is being exercised by those who are responsible for the financial and credit situations of the country.

FILE YOUR

ures and labor strikes, and the industrial inactivities that followed them growing more and more ominous, the industrial wheels of the United States have hummed merrily on, apparently oblivious to foreign conditions.

It should not be presumed, however, that this is an argument for a permanent adjustment to a domestic basis, but rather a narrative of the fact that it is proving to be the only safe and sane way for industry to extricate itself from depressing entanglements. It apparently was distinctly up to the American business man to get his own house in order before he could look around and see what his neighbor was doing, with any degree of safety. That having been done, all lines of endeavor are on a basis which will permit their gradual, if alow, expansion, and a basis which will permit their gradual, if slow, expansion, and will permit the stimulation of for-eign buying, when it comes, to have its fullest effect.

Mrs. D'Aluto's expectation of maternity was frustrated late Monday night, and reported to the District Altorney's office yesterday by Joseph D'Aluto, husband of the stricken woman. He stated that he feared for his wife's life, but Dr. Joseph Holleran, in attendance on the woman, declared Mrs. D'Aluto's condition grave but not necessarily fatal.

Mrs. D'Aluto was injured during a raid by Wheeler and his aide. F. C. Neal, on the 24th inst. Her serious illness and the arrest of the two officers followed.

It is charged that Wheeler kicked Mrs. D'Aluto and otherwise injured her, and is is now believed that the injuries resulted in complications.

Wheeler is the same prohibition agent who was charged with having strung up an 11-year-old Ifalian boy by his wrists, and with having beaten Joseph Flore.

C OMBATTING LAWLESSNESS
One of the regrettable features of the reconstruction period after the World War is the marked increase in lawlessness. The eminent Dr. Coue to the contrary, we are not getting better and better in our ob-servance of the law.

Prohibition has been followed by a decrease in crime in some parts of the country and by a very sharp increase in others. Some blame prohibition for a very wide-spread disobedience to law. Others trace it to the violent passions and the extravagant habits that marked and marred the war period. Still others find the contributary causes in the spread of radical propagands and the defiance to the law preached by labor-union leaders.

When an accident or disaster occurs.

When an accident or disaster occurs, however, the first and the sensible thing to do is to secure immediate relief. An inquest is not a preventive. It only serves to fix the blame.

Lawlessness is on the increase in the city, the State and the nation; indeed, in the world at large. California is not worse than other States. Conditions in the Unitthan other states. Conditions in the Unit-ed States are, on the whole, better than elsewhere in the world. Because there is an increase in violence elsewhere it should not and must not follow that violations of the law shall be permitted or condoned in our own community.

nry Ford says that the distribu-the world's wealth is all wrong. As a now known as the earth's richest written, and the criminal code should be so revised that the law itself shall not be

violations of the law.

Lawabiding and public-spirited citizens of California are uniting in a campaign to bring about a revision of the criminal laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the laws and a swifter and stricter enforcement of the Los Angeles Crims Commission recommended two constitutional amendments; the one provides that a verdict may be rendered by a three-fourths vote of the jury in cases where the sentence does not involve the death penalty, and the other gives to judges the right to

Leaders of the bench and bar are almost ments. They are a protection to the in-mocent and a menace to the guilty. These men who devote their lives to the law courts are in a position to judge of the efficacy of such legislation. It is not ex-perimental. It has been in effect outside

The law is enforced uniformly against persons of all stations. Whatever one's rank or wealth, he is liable to be mobilized into the great army of the employed at any time. And the period is for eight months' straight service, with no excuses granted save in cases of fil health. An amendment to the law will shortly make it applicable to women also.

While this is a decided inroad on personal rights it shows a disposition to see

Even, however, after allowing for the too common irresponsibility that has grown like smoking. So has Joe Cannon.

But by trading with members of other bloce, seeking special privileges and favors, the government-ownership advocates hope to secure the votes necessary to get. The Brookhart bill is to be a gauge of their strength. Later they hope to adopt the same tactics in an appeal to the electorate, trading grievances for grievances.

Let the public beware of—let the people be ready to protest vigorously against all such bills as the Brookhart transportation bill, designed to make taxpayer, shipper and traveler pay exorbitantly for a service that will be taken out of the hands of business executives and left to the mercy of professional politicians and radical labor leaders.

RIPPLING RHYMES

THE TWO AUNTS

Aunt Bridget takes in washing, her work is hard and long; but she is joking, joshing and springing chunks of sons; Aunt Bridget is a dinger, a happy, cheerful singer; she plies her creaking wringer and she is going strong. I pass her humble shanty that amelis of suds and soap and say, "How is it, aunty, you're full of joy and hope? So many folks are whining, so many are repining; your face is always shining—now hand me out the dope." She says, "I can't explain it why I am always gay and yet, I dare maintain it, the fanteds keep away; if I had time for brooding I might find hope deluding, and grief would come intruding before the close of day. Throughout the day I'm busy in soapsuds and in foam and then, in my tin Liszle, I take the bundles home; I'm always on my mettle, I'm in the finest fettle, and sorrow doesn't settle upon my furrowed dome." Aunt Jalia has a bundle that well might load a dray and to the bank she'il trundle a package every day; but she is tired of gadding, of servants round her padding, and she is tired of adding the coin she's put away. She's tired of week-end parties and pink teas on the lawn, of entertaining smarties who bore her till they're gone; she's tired of fashion's ruling, of all the idle fooling, the gossip and the drooling; her face is sad and drawn.

BUILDERS DENY KEPPEL CHARGE

Official of Association Says School Head is Wrong

Declares Combine Does Not Exist in Fraternity

Letter Cites Figures to Prove Assertions

Denying the statement attributed to County Superintendent of Schools Mark Keppel that a building combine exists in California, D.

Schools Mark Keppel that a building combine exists in California, D. C. Casselman, secretary-manager of the Builders' Exchange of Los Angelea, declared in a letter sent yesterday to Mr. Keppel that his asserted statement was unjust to the building fraternity.

Mr. Casselman's letter follows:

"In the local press of the 25th inst. appeared an article dated Sacramento as of same date wherein you are quoted among other things as having stated that in your opinion there exists a building combine in this State, and that millions of dollars could be saved in school construction by eliminating the contractor, and erecting school buildings by day labor; further that the school authorities are at the mercy of contractors at the present time.

"If you have been correctly quoted, the statement is so diametrically wrong that it cannot be passed without challenge. This statement causes an impression to exist that works an injustice to the building fraternity, and is not borne out by facts or conditions.

many instances in the past, bonding companies have been called
upon and compelled to complete
work left unfinished by the "successful" bidder who could not successfully carry out the provisions

cessfully carry out the provisions of his contract?

"As to a combine, I call your attention to the most recent case of our notice, referring to the Glendale High School, bids for the construction thereof being opened the 25th inst, showing nine bids ranging from \$429,000, the lowest to \$563,920, the highest. Does this look like collusion?

"Los Angeles, the third city in the United States in building perations for the past two years, being exceeded only by New York City and Chicago, could hardly be said to be at the mercy of a building combine.

BIDS UNNCESSARY "In the year of 1922 the month-by average building permits was 110,000,000, and your purported fatement is not substantiated. "It may be further said that in many instance. statement is not substantiated.
"It may be further said that in many instances, contracts running into millions have been entered into millions have been entered into without competitive bidding. When a building is proposed, the architect is selected not by hidding but by his work and standing. This should also apply to contractor, and materials, bids or otherwise.
"The Los Angeles Beard of Education furnished the Builders' Exchange with plans and specifications for all proposed work and welcome competitive bids.
"This organization has been in existence for thirty-one years, and the membership is made up of contractors, material dealers and others interested in the building industry, firms and individuals of high and unquestioned standing, non-profit-sharing, formed to prevent the very thing you are said to say prevails, standardize and stabilize honest materials, honestly materialized, the best in building, with a reasonable profit.

"There is no such thing as bargains in building, no shopping; prices of materials are established and known; labor wage prevails; the law of supply and demand.

"The National Associated deneral Contractors are hedding their annual convention in this city at the present time and we trust the visiting delegates will not misjudge us by reason of your statement, so quoted."

Vaccination of Dogs Is Latest

GLENDALE, Jan. 80.—Council-man C. E. Kimfin last night proposed an ordinance at a specia session of the City Council the session of the City Council that would be an efficient way of disposing of ownerless dogs. This ordinance would increase the dog license to \$5 or \$7, and the animal would receive an inoculation against rables, protecting the dog from wandering ones afflicted with that disease. No license could be issued without the treatment given. This also will apply to cata, though the license fee was not discussed.

Dr. G. Kaemmerling, City Health Officer, requested the passage of this ordinance. If such ar issue should pass it would become a mindemeanor to keep any dog or cat for which a certificate of vaccination has not been issued and a fine of not more than \$500 or not more than six months in jail would be the penalty.

FINDS BULLET IN AUTO

Foller, who reported the incident to the police, was at a loss to explain the manner in which the built struck the top or whence it came. The tough fabric apparently gave way sufficiently to prevent a clean hole and checked the flight of the built, which was fired from an angle. Whether the built was a spent ball which chanced to fall on the top or was directed at Fuller, possibly by some highwayman, was undetermined.

The easiest way to go about picking titles for the pictures as they appear in Te Times each day is to refer to the "Book of Playa," which contains nearly 1500 titles of stage plays. The titles are alphabetically arranged, and when the list is scanned and suitable titles selected, it enables participants to satisfy themselves in their own minds that the best possible titles have been given.

DIFFERENT IN EUROPE

The Continental peoples have a very different viewpoint in matters of the stage and screen. Their stories are treated from a much liferent angle than the treatment accorded American subjects. According to a certain producer who in constant touch with the likes and dislikes of the American pub-ic, we are a nation which is drawn to the comedies of life rather than see the humorous side of things, and dislike anything gruesome or morose. This producer continues to say that the public is tiring of its own medicine and would like to deviate from the happy-go-lucky type of story. We demand that the story be absolutely true to life in every respect. It is this type of story in which the foreigners, including Seastrom, excel. SOCIETY

Two of the February brides who are the inspiration for most of this week's parties are Miss Amelin Hogan and Miss Katherine Torrance. In addition to all the other parties that are being given for Miss Amelin Hogan and Mr. George Hull. the ushers who will officiate at their wedding have now elected to play host to this highly popular young couple. These are Messra. Aldsich Peck, Roy Carver, Harris Woods and Goodwin Bradley. The company will include the entire bridal entourage and will be given at the Ambassador Hotel on Monday evening. February 5. Mr. Van der Veer Hogan, brother of the bride-to-be, will be Mr. Hull's best man at the marriage. The groom arrived from Pennsylvania yesterday and was met by the entire bridal party.

Miss Genevieve MacDonald was hostess last night at a gay dinnerdance at the Ambassador Hotel in honor of Miss Hegan and Mr. Hull: It was "Night in Old Japan" in the Cocoanut Grove, and Miss MacDonald carried out the idea in the decorations at her table, which were elaborate and distinctly oriental. The guests were: Miss Amelia Hogan, Mrs. J. Stanley Davis, Miss Gwendolyn Longyear. Miss Rosmrio Dockweiler, Miss Jeanefte

the graft scandal, is held at the City Jall on a fusitive warrant from Chicago. He was arrested Monday night by Detective Serseants Yarrow and Jackson and Detective Mauk, a Pinkerton operative, in a hotel at the intersection of For-th and Spring streets following the issuance of capiases at Chicago ordering the arrest of all the asserted conspirators.

A writ of habeas corpus was issued last night by Judge McCormick in behalf of Rohm, returnable in the same court at 10 a.m. today. The writ was directed to Chief of Folice Oaks and was sought by W. I. Gilbert, attorney for Rohm. It asserts that Rohm is being held without warrant. Emphatic denial of all complicity in the conspiracy was made by

Rohm declared further that he was not related to Lundin, and expressed the belief that his arrest is the result of a political frame-up engineered by politicians in Chicago. He declared that he has never handled investment bonds for the city, which the conspirators are asserted to have converted to their own uses, and knows nothing of the affairs of the school board in the Windy City.

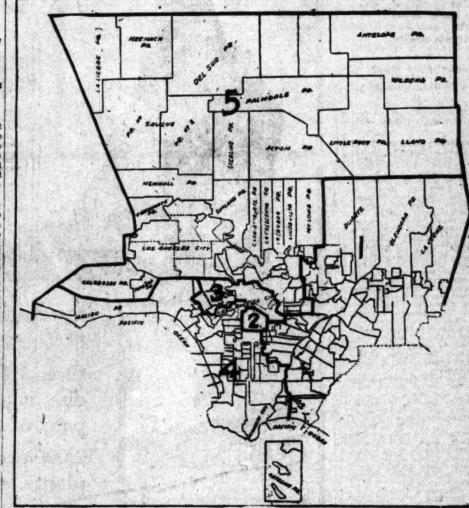

He told officers that he had wired to friends in Chicago to put up \$10,000 bonds for his release and is ready to return to Chicago without extradition.

THALBERG QUITS UNIVERSAL

Young Director-General to Become Vice-President of Louis B. Mayer Organization, February 15

Irving G. Thalberg, 23-year-old director-general of the Universe Pictures Corporation, tendered his resignation several days ago and will leave Universal City February 15, to become the first vice-president of the Louis B. Mayer organization, and to assume the directorship of production there. This new position for one of the motion-picture in-dustry's youngest executives is said to entail a yearly income of around ******100,000.

EL CENTRO, Jan. 36.—Lawrence C. Campbell and Charles
Davis, confessed slayers of Leslie
L. Nichols, Los Angeles insurance
man, today were remanded back
to the justice court for a preliminary hearing by Judge Franklin J.
Cole. Judge Cole ruled that they
are subject to trial in the criminal
department of the Superior Court
instead of in the juvenile department, evidence tending to show

ment, evidence tending to show them both more than 18 years of age.

Campbell's birth certificate, showing him more than 18 years of age was received from Michigan today. Dist.-Atty. Earnest R. Utley today received. a message from Sheriff J. W. Hughes of Winchester, Tenn., that there were no vital statistics available to prove Davis's age, but it was intimated that he will be declared 18 years of age by the court.

Trial in the criminal division brings the possibility of the death penalty once more into the case. The preliminary hearing will be before Justice I. Mayfield tomorrow, and it is expected that the trial date will be set for the immediate future.

Both boys admitted, following their arrest while driving Nichole's automobile, that they shot and then stoued their victim for purposes of robbery after he had agreed to give them a ride over the desert. They led a posse to the spot where they had buried that is morning by former Dist.-Atty. E. R. Simon. It was intimated that attorney Joseph Seymour may appear for Campbell. The defendants continue to maintain stoical attitudes.

This production will be doubled and studio facilities will be expanded, with more than \$200,000 to be invested in new stages and buildings. Three sew directors, the biggest in the industry, will also be brought to the completion of his mammoth feature film. "The Courtship of Miles Standish," which he is making now at his Hollywood studios.

Not only will Mr. Ray, accompanied by his wife, take the trip to the southern country, but it is quite possible that while there he may make a big feature picture, the name of which he is not yet ready to announce.

PROBLEM OF JOBLESS IS TAKEN UP

Unemployment in City Reaches Seasonal Peak, Report Says

Urging the co-operation of all organizations, churches, business men and property owners in solving the problem, the Mayor's unemployment committee in combatting the problem of unamployment that now faces Los angeles. The active work of the committee is being carried on under the direction of E. H. Hancock, district superintendent of the public employment bureau, at which office the campaign centers.

Mr. Hancock has enlisted the ministers of the city, who are asked to carry the message to their congregations direct, and is calling on the business men and women and property owners in general to assist through letters that are to-day in the hands of thousands of people.

Stewart Scores Butler's Stand on Prohibtion

Dr. Nicholas Murray Butler's recent expression in faver of the repeal of the Eighteenth Amendment
was criticised at the City City yesterday by Oliver W. Stewart, president of the flying equadron and
editor of the National Enquirer of
Indianapolis.

That the brilliant president of
Columbia University should find
fault with the lack of enforcement
of the Volstead Act and that he
should even consider the amendment fundamentally unsound, is
not strange, according to the opinion volced by Mr. Stewart, but that
Dr. Butler should so sweepingly
oppose the amendment without
more fully qualifying his remarks
on the subject, is the attitude
which Mr. Stewart regretted.

Expense Row Coming to Head

The disputs concerning county school expenditures for the fiscal year is expected to come to a head today when the committee of claver appointed by Ocurry Experiments today with County Anditor Payne.

The committee was appointed to investigate asserted discrepances in figures said to have been given to the ground jury by Mr. Payne, and exterments said to have been made by him concerning the increase in expenditures connected with the operation and maintenance of county schools.

At the meeting, which will be held at 1:30 p.m., in Mr. Kappel's office, it is believed that the committee will request Mr. Payne to sign a retraction of the asserted statements.

Clara Phillips, But Not Tiger Woman, Sued

Clara Phillips was sued yesterday for divorce. The ground named in the suit is desertion.

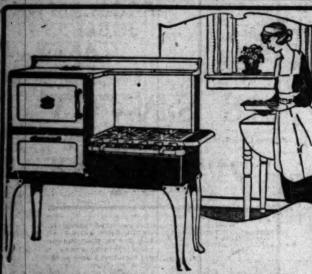

Behind these apparently startling statements is a fact not quite so startling; that Harris Phillips and not the better-known Armour L is the plaintiff in the action. The suit, filed yesterday in Superior Court, asserts that Mrs. Phillips was frequently away from home, and when her husband asked an explanation he was told it was none of his business. The couple were married in 1918 and separated the 23rd inst.
